

Allaxa Smart Lda | Av. António Augusto de Aguiar 122C | P -1050-046 Lisbon |
allaxa-smart.pt

Allaxa Smart is an innovative IT service company, that supports the mother company Creamec AG in Switzerland and its customers with IT services - cross industries and company size. We are providing project-specific as well as day-to-day operational challenges.

To set up a successful operational team, that actively supports our customers in developing and operating the IT environment, we are looking for an independent, high-performance

.NET Developer

who is willing and motivated to use his know-how for Allaxa Smart in an international environment. You will support our customer with your skills and knowledge.

Your responsibilities:

- Implementation / development of enterprise solutions
- permanent update on backend technologies, architectures and design patterns

Your profile:

- Degree in Computer Science / Engineering, Information Technology or equivalent
- At least 2 years' experience as backend software developer with hands-on experience in .Net
- Experience working with C#, Entity Framework and SQL Server
- Good interpersonal and communication skills
- Strong team player
- Fluency in English (written and spoken) is required, knowledge in German and / or French is a plus

What we offer:

- Challenges on international projects and in an international environment
- Continuous development and training
- Modern workplaces with assistance and support through all aspects of the onboarding process

Workplace: Lisbon

Challenge accepted? Are you ready for the next step in your career?

Then we would love to hear from you. Please send your application in English together with a photo to jobs@allaxa-smart.pt with subject ".Net developer".
